Contact Groups - Guidance for Secondary Schools

At school level

Use larger groups such as year groups for the first level of organisation

Never bring the whole year group together

Use large groups to designate areas of the school for exclusive use or use during designated times e.g. specialist teaching areas or dining hall

At form or subject group level

Use form groups as the unit for as many activities as possible e.g. in the dining hall or at break time

For older learners, subject groups will be the second grouping at this level

Minimise the number of groups a pupil belongs to

Reduce the number of pupils who will need to self-isolate

Change classrooms as little as possible

Seat in designated seats

Keep records of who sits where and consider time/date stamped photos

If there is a positive test, only those within 2 metres need to self-isolate
