

Conwy Social Care Employment Pathway and Employment Support for Employers - a learning programme to equip unemployed people with the key skills, understanding and knowledge to work in Social Care in Conwy, building confidence and skills for participants which may lead to future employment in the sector.

To launch the Employment Pathway we would like social care employers in Conwy to offer:

- Virtually meeting with trainees at the start of the programme to explain as employers the type of people you are looking for, what the job entails.
- Offer trainees a week's work experience – this will enable trainees to get a hands on taste of the work
- At the end of the six weeks of the Programme, meet with trainees to explain the job application/ interview process.
- Each trainee will have a mentor who will liaise with those employers offering work experience

If you would like to offer work experience and /or be part of the meeting the employers section of the programme please let us know – take a look at the attached **Presentation** from a recent **Employment Pathway briefing** and a copy of the **Draft Employment Programme** for more information.
